MEMORANDUM FOR: Deputy Director for Management and Services
SUBJECT : Weekly Report - Office of Training

I. Recent Activities

A. Solution of Classified Terminals Equipment Problem

The Office of Joint Computer Services plans to give us one of its multiplex units for the classified terminal area in the Information Science Center here in Chamber of Commerce, thus enabling us to have the area in operation for use in the four-week course starting next Monday. In return, we will arrange to have our now-delayed unit delivered to OJCS when it is found to be available.

B. Counterintelligence Training

There has been some indication of disturbance in the CI Staff and the East Asia Division as a result of the conclusion that specialized training should be dropped in favor of concentration on integrated operations. As closely as we can determine so far, this concern is lest the CI Survey be dropped. How much of this is a concern for depriving trainees of needed instruction is not entirely clear. Nevertheless, we have acceded to the request to put on the next scheduled running of the Counterintelligence Survey and then determine, together with CI Staff members and the DDO/TRO, what is actually needed. The survey course will be conducted in Chamber of Commerce, beginning 5 November, for 13 people.

C. Special Program at DEA

At the request of Chief, [redacted], DDO, two OTR operations instructors, joined by an instructor from the Office of Security, gave a two-day program, Tuesday and Wednesday at the Drug Enforcement Agency for three [redacted] STATINTL
